Experience:

Senior Technical Consultant

- **Employer Name:** TESTQ Technologies Limited
- **From:** Jul 2018 – Present
- **Duration:** 2 yr. 1 mos.
- **Location:** Nasik Area, India
- **Details:**
  Developed an POS system which is developed using Electron framework, Nedb and Laravel for the backend.
  I have been promoted to this role to manage the overall technical support for different divisions of the company including Information Technology Support Services, Digital Marketing and Professional Services.
  While working as Senior Technical Consultant I lead the development and management of the GDPR compliant platform/system which is used by Professional Services division to support business process and/or daily work routine.
  Apart from this I help my colleagues to understand different platforms from technical/functional perspectives.
  I help my colleagues to manage and assign professional services work according to priority and situations.

Team Lead

- **Employer Name:** TESTQ Technologies Limited
- **From:** Nov 2017 – Jul 2018
- **Duration:** 09 mos.
- **Location:** Nasik Area, India
- **Details:**
  As a team lead, my responsibilities include communicating with clients to understand their requirements and manage work accordingly.
  Helping team members for development as well as design related tasks.
  Involve into discussion to decide different things about projects from business as well as development perspectives.

Software Developer

- **Employer Name:** TESTQ Technologies Limited
- **From:** Apr 2017 – Nov 2017
- **Duration:** 08 mos.
- **Location:** Nasik Area, India
- **Details:**
  As a software developer, I worked on different web development projects.
  Used Ajax, jQuery majorly along with HTML, CSS for different projects under development.
  I developed a Social Media Analytics project using API's provided by different social media platforms such as Twitter, Facebook, Instagram etc. I was the only developer assigned to this project.
  Supported clients with different requirements such as administration of the Magneto, WordPress enabled website.

Sometimes I help my clients and colleagues with the design requirements using Adobe Photoshop as I have some knowledge of it.
